

LIBER

Scan QRIS. Pay with USDC.

THE PROBLEM

PAID IN DOLLARS. LIVING IN RUPIAH.

5-8%

lost to fees and bad rates when cashing out

1-3 DAYS

before the money reaches your bank

ZERO

QRIS merchants accept crypto directly

Crypto on one side. Coffee on the other.

THE RAIL

QRIS RUNS INDONESIA

55M+

Indonesians scan QRIS to pay, every day

BANK
INDONESIA

the national standard, built by the central bank

WARUNG
TO MALL

street stalls to department stores, one code

One standard QR at every merchant

MEET LIBER

A non-custodial Stellar wallet. Scan any QRIS, pay straight from your own USDC.

YOU HOLD THE KEYS

USDC STAYS YOURS UNTIL YOU PAY

MERCHANT CHANGES NOTHING

HOW IT WORKS

ONE SCAN. EVERYTHING AUTOMATIC.

Balance never leaves your Stellar wallet. Scan, and the linked Visa is charged behind the scenes until the merchant is settled.

THE EDGE

WHY LIBER WINS

NON-CUSTODIAL

Your keys never leave your device. No exchange holds your money.

RAILS ALREADY LIVE

Kolo Visa, GoPay, DANA, QRIS. All regulated, all in production. Nothing new to trust.

DAY-ONE COVERAGE

Every QRIS merchant in Indonesia works instantly. No merchant onboarding, ever.

STELLAR ECONOMICS

Seconds to settle, fees under a cent. Coffee-sized payments actually make sense.

UNDER THE HOOD

BUILT ON STELLAR, END TO END

NATIVE USDC

Circle-issued USDC, trustline
created on signup

3-5 SECONDS

on-chain settlement, every
payment

\$0.00001

network fee per transaction

CLIENT-SIDE KEYS

wallet generated on device,
Horizon for balances and
payments

Higher-fee chains kill everyday-purchase economics. Stellar makes a coffee-sized payment viable.

A Rp45,000 coffee
only works here

YOUR MONEY, BORDERLESS.
